

A man and a woman are walking together in front of a modern glass building. The woman is on the left, wearing a denim jacket over a maroon floral dress. The man is on the right, wearing a grey suit and a striped tie. They are both smiling and looking at each other. The building behind them has large glass windows reflecting the sky and surrounding environment.

HOW CAN WE  
PROTECT THE ENVIRONMENT  
WHILE SUPPORTING JOBS?  
BY WORKING TOGETHER.

U.S. natural gas and oil development funds 90% of the Land and Water Conservation Fund — the largest federal conservation program in the country. The industry also adds \$1.4 trillion to our economy. That means Americans don't have to choose between safeguarding nature and millions of jobs — we can do both. Learn what we can accomplish together at [EnergyForProgress.com](https://www.energyforprogress.com).

AMERICA'S NATURAL GAS AND OIL  
**ENERGY** *for* **PROGRESS**
